

All runners will start together at the start/finish. 5k runners will turn around at a cone at the 5k turnaround. 10k runners will run past that cone to a water station by the stables. Run straight past the water station to a bike path. Run a short loop there clockwise back to the water station, and then to the finish.

The 10 mile race will start in the same place as the 5k/10k. At the 10k loop, runners will cross Perimeter Road to the concrete bike path and head south (right turn) to the 10 mile turnaround.
